Therapeutic Massage

Therapeutic massage is our basic Swedish massage that works on increasing circulation and decreasing tension in the muscles. This is what most people think of when they have a massage. It will enable you to relax completely, and will encourage your body to sleep better, digest better, eliminate better, breathe better, and feel better. If this is your first experience with massage, therapeutic massage is a wonderful introduction.

75 minutes: \$95 ~ 50 minutes: \$70 ~ 25 minutes: \$40

Aromatherapy Massage

Aromatherapy massage utilizes the basic Swedish massage format, and includes the wonderful healing properties of essential oils to increase the therapeutic effects of the treatment. Aromatherapy can uplift the mood, encourage the muscles to release waste products, clear sinus and lung congestion, eliminate headaches and muscle tension. Aromatherapy massage is safe for pregnant and nursing mothers as well as those recovering from illness.

50 minutes: \$75

Shiatsu Massage

Shiatsu is a Japanese massage that uses pressure on specific acupuncture points to activate the body's energy system and encourages balance in all body functions. This massage is done clothed on a massage table and is deeply relaxing to the nervous system to encourage your body to function better. Shiatsu is appropriate for problems related to stress, poor digestion, recovery from illness, under or over activity of the glandular system, and when there is a problem with function of any internal organ.

50 minutes: \$75

Reflexology

Reflexology is foot massage that targets zones in the feet that correspond to the entire body and helps to heal discomfort in areas that cannot be touched directly. By massaging points that "reflect" different internal organs, muscles and joints, the therapist encourages your body's natural regenerative ability.

(Note: We regret we cannot do reflexology on feet that are irritated with redness, itching, peeling skin, nail discoloration or warts. We invite you to take any of our other body treatments instead.)

25 minutes: \$40 ~ 50 minutes: \$75

Hot Stone Therapy ~ Deep Heat for Muscle and Stress Relief

Hot Stone Therapy utilizes heated stones which are placed on the body on very specific points and also used to actually massage the body. This increases energy and blood circulation, and encourages the muscle to release waste products more efficiently than massage alone. Using heat relaxes the nervous system to such a degree that the body feels totally calm and peaceful. Hot Stone Therapy is a wonderful healing treatment to take when you need to be deeply relaxed and still have a penetrating muscle massage.

60 minutes: \$90 ~ 75 minutes: \$110

Deep Tissue Massage

Deep Tissue massage is very penetrating and vigorous for bodies that have pain after injury, over exertion from sports, or very solid muscles that normal massage pressure is not deep enough for. Utilizing a combination of deep transverse friction, myofascial release, and trigger point therapy, your therapist will allow areas of restriction to be released.

50 minutes: \$85 ~ 75 minutes: \$110

Body Haiku

Just like the simplicity and beauty of a Haiku poem, our Body Haiku treatment combines the best of our massage and facial services. Start with an **Aromatherapy Full Body Massage** for both physical and mental relaxation, followed by a **Japanese Facial Massage** using aromatherapy specifically blended for your skin type, lymphatic drainage massage and Shiatsu massage for the face. Body Haiku is the essence of our many treatments, creating a perfect balance for your physical health.

80 minutes: \$100

Reiki Treatment

Allow the soothing energy of Reiki to relax and calm the body and mind. **Reiki is an energy treatment done fully clothed, used for balancing the body after physical or emotional trauma, or to help balance during illness.** This treatment leaves you relaxed yet invigorated. Michael and Diane are certified Reiki Masters.

50 minutes: \$75

Prenatal Massage

There is no better time to have regular massage therapy than when pregnant.

The increased circulation and decreased muscle tension allow you to feel so much better and improve oxygen and nutrition to the baby. Regular massage can help to prevent hyperpigmentation associated with pregnancy, allow tired backs and sore feet to be relieved, and give you more energy to deal with life.

50 minutes: \$75

Fibromyalgia Massage

Fibromyalgia is a systemic, rheumatic disorder that generally affects the muscles of the neck, shoulders, low back, and thighs. **Fibromyalgia massage is a gentle, rhythmic, soothing therapy to allow the muscles to relax and release excess waste products to relieve pain.** Energy work is included to help the body self regulate. Let our knowledge and experience help you give you back your body.

75 minutes: \$95

TMD Treatment

The TMJ joint is a double joint in the jaw which can get out of alignment due to injury, dental malocclusion, stress, and clenching or bruxism (grinding). Temporal Mandibular Joint Disorder can include jaw pain, headaches, neck pain, and pain around the ear. The symptoms are usually exacerbated during times of stress, menstruation, and following dental work. If you have been diagnosed with TMD or have jaw pain, our treatment may be extremely helpful.

50 minutes: \$75

CranioSacral Therapy

CranioSacral Therapy is a unique modality that uses very gentle pressure to heal problems in the back, spine, head, and skull, by encouraging flow of the cerebrospinal fluid. It is done clothed and face up, and is used to heal problems of birth trauma, scoliosis, residual problems after accident, chronic pain, chronic sinus congestion, and headaches. Because CranioSacral Therapy works directly on the nervous system via the brain and spinal cord, it encourages the body to resist the effects of stress and greatly enhances immune function.

50 minutes: \$75

Lymphatic Facial Massage

Lymphatic massage manually moves excess fluid and waste products from the face and sinuses, which allows facial puffiness and sinus congestion to be relieved. This is an excellent treatment for sinus headaches, pre and post facial surgery, and facial edema (swelling). This treatment has noticeable anti-aging benefits. Wonderful addition to any massage or facial service.

50 minutes: \$75

Oh, Look At Those Gorgeous Brows! Eyebrow Shaping

The eyes may be the windows to the soul, but the brow frames and defines the eyes and is the feature most capable of changing the face. Professional make-up artists believe that the eyebrows are the most important facial characteristic, and if you don't get the brows right, make-up can't make up for it. Shaping the eyebrows is a time consuming, artistic service that will actually enhance your natural beauty.

If there is one beauty treatment you choose, do a brow shaping for yourself.

First Brow Shaping: \$45 ~ Follow up Brow Shaping: \$25
